

THE QUALITY WORKERS COMPENSATION SOLUTION FOR MASSACHUSETTS LUMBER BUSINESSES

2015 Annual Report To the Members

February, 2017

Members of Self Insured Lumber Businesses Association, Inc.

Dear SILBA Members:

I am pleased and privileged to introduce the 2015 Annual Report to the members of Self Insured Lumber Businesses Association, Inc. (SILBA). 2015 marked SILBA's 24th year of serving lumber businesses in Massachusetts.

2015 Financial Results

In 2015, SILBA generated a calendar year gain of \$913,191, or 29% of 2015 calendar year net earned premium. This compares to a calendar year gain of \$661,261, or 21% in 2014.

Calendar year net earned premium in 2015 remained the same as in 2014, at \$3.14 million. The premium increased slightly by 3.5% and the average experience mod and ARAP factors decreased by 4% from 2014 to 2015.

SILBA's loss ratio improved from 64% in 2014 to 55% in 2015. The 2015 calendar year loss ratio includes a net release of prior year reserves of \$539,000 relating to overall favorable development in prior year claims. This compares to a net decrease in prior year claims for calendar year 2014 of approximately \$346,000.

On a nominal basis, SILBA's underwriting expenses increased \$1,600 from \$618,400 in 2014 to \$620,000. As a percentage of premium, SILBA's underwriting expenses remained consistent, at 19.7% in 2014 as well as 2015.

The net effect of the calendar year results was an improved combined ratio (losses plus expenses as a percent of premium) of 75%, compared to 83.7% in 2014. Investment income earned in 2015 of \$130,000 contributed to the operating gain of \$913,191 or 29% of 2015 net premium.

SILBA's Balance Sheet

At December 31, 2015, SILBA held \$6.17 million in total assets, about 98.5% of which were invested in highly-rated debt securities, in accordance with state regulations, or held in cash and short-term investments. This base of invested assets provides SILBA with a consistent stream of investment income that supplements the members' dividend pool. As noted above, in 2015 net investment income earned increased the members' dividend pools by more than \$130,000.

One of SILBA's largest liabilities, at \$2.7 million or 43.7% of total liabilities, is "Distributions due to members", representing dividends earned and held for future distribution to SILBA members. These dividends payable represent the group's "surplus", corresponding to a premium to "surplus" ratio of 1.17 to 1.

At \$3 million, SILBA's largest liability is its "Reserve for losses and loss adjustment expenses", reserves held to pay the <u>estimated</u> future costs of claims incurred to date. These reserves include \$850,000 of adjusters' reserves on reported losses for all fund years, and another \$2.15 million of net actuarial or contingent reserves established to fund potential ultimate losses. This equates to approximately \$2.53 of contingent reserve held for every \$1 of adjusters' reserves.

Since inception of the program in 1992, SILBA members have earned nearly \$26.3 million in dividends, an average earned dividend of 29.4% per year. At year-end 2015, dividend distributions to members to date totaled more than \$23.6 million.

THE SAFETY OPPORTUNITY: Safety-Life Practices

Since its inception, SILBA has been committed to creating and maintaining safe workplaces for our employees. We expect our management teams and employees alike to embrace safe procedures, and to maintain a positive attitude toward working safely every day. We all know and understand that our behavior as owners and managers is directly related to the commitment that our people have toward safety and to our positive or negative results throughout our organization.

You have heard these words before but it's your practices that make the difference; you as individuals, as supervisors, as managers, as owners and as employees. Do you have and use the safety practices at home/off the job and follow through on the job? Do you use them at work but when you leave, disregard them? Safety is a state of mind; it is part of bringing up a family, working with friends, helping out neighbors, working with fellow workers. It is caring about others and yourself. So find ways to think about it and practice it every day, pass it on, encourage others around you to do the same for their sake and yours.

DO whatever it takes to keep the message alive and well for others sake and your own.

All of your employees work hard at what they do, especially your long-term employees. Consider rewarding them with a thank you, a small token, a luncheon; something to show that you appreciate the work they have done. Each of them has helped your bottom line in some way and have made a difference with where you are as an organization so a little recognition is simply a way of acknowledging it and would be appreciated by all.

It's all about shared RESPONSIBILITY. Safety on the job – a safe workplace, safe behaviors - is a vital factor to achieving the shared goals of our organizations. As owners, managers, supervisors and employees, our job is to effectively communicate that safety is important to all aspects of the business, which result in a successful business. Safety is always a current topic, look for little and big ways to keep it alive. Safety is a practice that we should continue to include in our life practices to keep ourselves and those around us from harm.

Our success as a workers compensation self-insurance group and as companies is directly related to the priority we assign to employee safety and the amount of time and effort we are committed to investing in it. If you keep your number one asset safe, your employees, you will reap the financial benefits as a company.

Safety is in our hands. Our employees' safety is in our hands. Our success is in our hands. Do it!

Let's all make it a point to practice safety every day and keep it ingrained in everything we do.

Very truly yours,

Bink Lyond

Prepared by Meadowbrook TPA Associates Program Manager for SELF INSURED LUMBER BUSINESSES ASSOCIATION, INC.

SAFETY FOCUS

THE SILBA MISSION STATEMENT:

The mission of Self Insured Lumber Businesses Association, Inc. is to be the highest quality and most cost-effective workers compensation alternative available to Massachusetts lumber businesses.

SAFETY FOCUS:

Safety is a state of mind, a culture. Safety is an owner, supervisor and individual responsibility. When each member assumes their responsibility and is accountable for maintaining a safe workplace, everyone benefits. This is the safety focus that SILBA members have collectively adopted for more than 24 years.

SAFETY ACTIVITIES:

Yearly, SILBA and their partner, Meadowbrook, team-up to provide safety and claim services, to assist members with achieving their goal of creating and maintaining safe workplaces through safety services that are made-to-order for the individual member's needs. These include: on-site safety surveys, onsite training, onsite claim reviews, attendance and presentations at members' safety committee meetings, and sharing of pertinent safety literature and resources.

One of the main services provided to SILBA members is to perform accident investigations to determine measures that can be taken to prevent recurrence and if applicable these preventive measures are broadcast to the rest of the membership with the hope that each member will take applicable action for their own preventive measures. This information may also be used to determine topics for the Safety Day events, used for safety articles in the quarterly newsletters and included in monthly safety blasts. Past topics have included: OSHA updates, Facility Safety Audits, Executive Safety Training, Safe Lifting, Controlling Slips, Trips and Falls, Job Safety Analysis, Forklift Safety, New/Revised Hazard Communication Standard, Electrical Safety, and Working with an Aging Workforce.

Members do receive periodic Safety Alerts and Safety Blasts. These are excellent to use with your employees for 5 minute safety talks, safety meeting materials, etc., and then to post on your safety bulletin boards or email out to all of your employees.. All of this and other valuable safety information is also posted to SILBA's website, <u>www.silba-wc.com</u>, for member's convenient access. Please take advantage of this site for your safety needs.

CLAIM AND LOSS CONTROL COMMITTEE MEETINGS:

SILBA's Quarterly Claim and Loss Control Committee, works for you to keep you up to date with current SILBA events, and other current topics as well as determining claim status so appropriate action is taken for members.

The committee is provided with the status of current safety visits, national and state hot topics, and trends of claims and results of accident investigations from the prior quarter as well as members' safety action plans to address areas of concerns. A Round Table segment is held in which members share their own safety activity stories for the benefit of all. This forum encourages the discussion of best practices and successes, which has been extremely beneficial to all. <u>All members are invited and encouraged to participate in these quarterly committee meetings.</u>

SPRING SAFETY DAY AND FALL SAFETY WORKSHOPS:

These Safety Days are held for your benefit. SILBA held its Spring Safety Day in May, with excellent speakers discussing "The Mechanics of Aging", "Massachusetts Hoisting Regulation and Training Update", and "Legal Perspective on Dealing with an Aging Workforce/Employment Practices".

The Fall Safety Day took place in October and the topics were "Preventing Neck and Shoulder and Arm Injuries", "The role that Nurse Case Managers Play", and "Defensive Driving".

OTHER RESOURCES:

SILBA has a website (<u>www.silba-wc.com</u>) that provides a wealth of information for you to use in your safety efforts. This is another great safety tool for SILBA members, as the website is frequently updated with pertinent, useful information. Meeting dates and links to other safety sites are included for easy reference, and there is an archive of past safety newsletters, and safety blasts. Members can also report an accident and request certificates of insurance through the website.

Another safety resource available to SILBA members through Meadowbrook is a safety portal, Safetysurance (<u>www.safetysurance.com</u>), where members are able to download and print or share electronically a large variety of industry-specific safety information such as Safety Brochures, Safety Talks and Meeting Topics, Safety Posters and Checklists, and Safety Plans and Programs. Live Streaming Training Videos are also available.

GOALS: 2017:

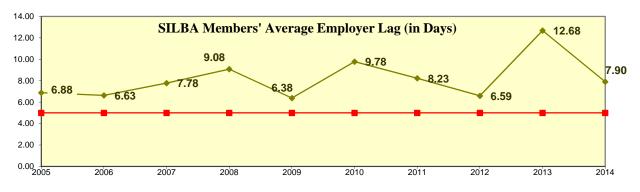

As we look to 2017, SILBA members will continue to focus on:

- How we can provide a safer workplace for our **more experienced** employees
- Providing education to members on implementing Internal Safety Audits
- Providing education and training to all employees so that they are equipped and continually reminded to do their jobs in the safest way possible; and
- Eliminating unsafe behaviors in the workplace by **using** an effective **disciplinary** program to deal with this issue
- Address safety issues surrounding "The Mature Workforce"

Keys to SILBA Claims Management

The focus for claims management continues to remain on three key areas: early reporting of claims, providing temporary modified duty, and post-offer/pre-employment physicals. The Workers Compensation system in Massachusetts provides a unique set of challenges in claims management, but SILBA's members need to continue to focus on the areas they can control, which will set the stage for future positive performance.

1) <u>Report All Claims Early</u>. SILBA regularly monitors the employers' lag time, defined as the number of days between the date an incident occurs and the date it is reported to the claims adjuster.

SILBA members showed a marked improvement in terms of timely reporting from 2013 to 2014 as the average Lag Time went from **12.68 days to 7.90 days**. While this still does not meet SILBA's goal of reporting all claims within 5 days, it is trending in the right direction. The median Lag Time was 4 days and is a good indication that most claims are being reported timely. However, those that are not reported timely can have a negative impact not only on the Lag Time numbers, but claim costs as well. There were 40 claims reported more than 10 days from the date of injury, down from 55 in 2013. Of these 40 claims, 10 were Lost Time and 30 were Medical Only claims.

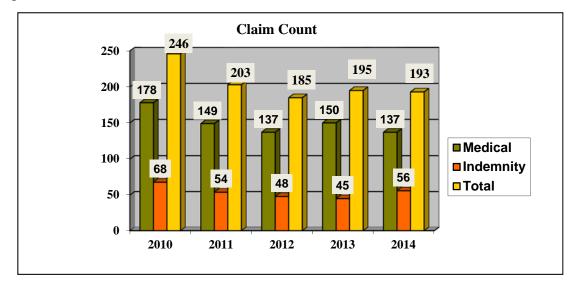

The average Lag Time for Lost Time claims only was **8.5 days**, with the median being **3 days**. This indicates that most of the Lost Time claims are being reported timely. However, the 10 claims reported greater than 10 days from the date of injury substantially impacts the overall Lag Time results. It is also noteworthy that only 4 of the 10 were due to late reporting by the injured worker. A stronger focus needs to be placed on reporting all injuries timely, so we can ensure that timely and appropriate treatment is being made available to the injured worker and the focus is on what they can do versus what they cannot do in terms of a work capacity.

2) Provide Temporary Modified Duty. The most effective means of mitigating future exposure on claims is by providing temporary modified or transitional duty. Changing the mindset of the injured worker to focus on what they can do, not what they cannot, has a profound impact on their recovery. Not only does it reduce the indemnity (lost time) exposure, but it engages the employee and often motivates them to return to their regular position. This has a further positive impact on the company, lessening the burden placed on the injured worker's peers who have to make up for their absence.

SILBA has long required its members to provide temporary modified duty when an employee is injured. It has been proven to be the most effective means of controlling claim costs. There are a number of resources and tools available to assist with identifying modified duty opportunities, such as Job Fit Analyses (JFA) and transitional work functions, depending on the nature of the restrictions placed on the injured worker. By focusing on what they can do and making accommodations to bring them back to work timely and safely, this also helps to reassure the injured worker that they are an important member of the team and greatly assists in transitioning them back to their regular role as their condition improves.

3) <u>Implement Post-Offer/Pre-Hire Physicals</u>. The number of members within SILBA utilizing post-offer, pre-employment exams has increased significantly, and is something that benefits every member. Given the relatively low cost of the exam (\$75 to \$150), avoiding even one medical only claim would cover the cost of the exams for that member. Avoiding one claim involving surgery could save anywhere from \$50,000 to \$100,000 or more given the costs of medical treatment and lost wages. It is incumbent upon each SILBA member to make sure you are not hiring someone with a significant pre-existing condition that negatively impacts their ability to perform their essential job function. Making sure someone is able to <u>safely</u> and effectively perform the essential functions of the job is critical in hiring <u>the right person for the job</u>, not just filling the position.

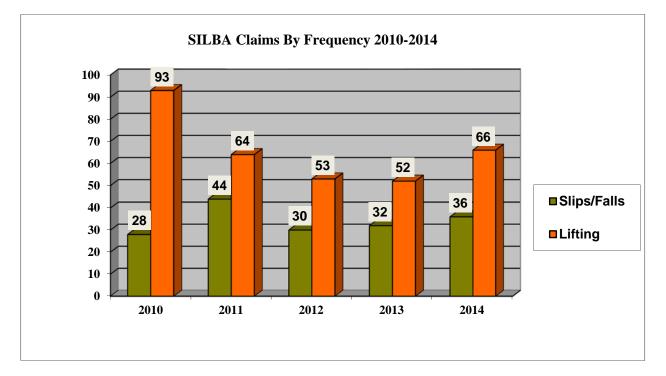

Claim Trending

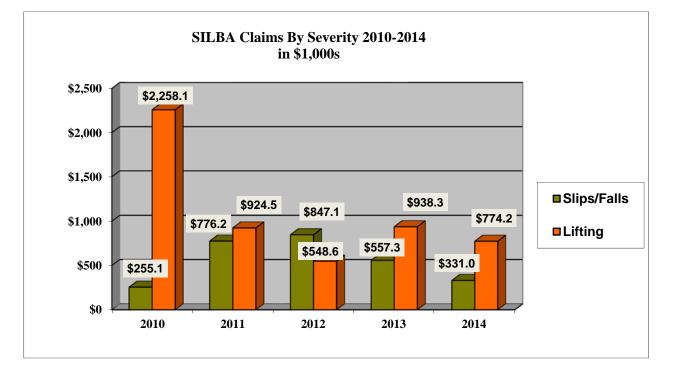

Learning from the past and identifying trends will allow SILBA members to focus on the key areas for future performance.

Overall claim counts have declined over the last 5 years, partly due to the economy, but also as a result of the continued focus on Safety and Accident Prevention. While there was a slight decrease in the number of claims from 2013 to 2014, there were 11 more Lost Time claims in 2014, representing an increase in severity. This is a trend we do not want to continue into 2015 as it represented the most Lost Time claims since 2010.

Given the nature of the businesses within SILBA, the two most significant exposures are Slips/Trips/Falls and Lifting/Pushing/Pulling incidents. These are the two areas needing the most attention when it comes to Safety and Accident Prevention efforts. Once again, there was an increase

in the number of each type of cause of injury from 2013 to 2014 – 12.5% in the number of Slips/Trips/Falls and 27% in the number of Lifting/Pushing/Pulling injuries.

Frequency and severity often go hand in hand, as the more incidents there are, the greater the odds are for a more severe incident as evidenced above. 2012 was an anomaly as it was the only year in the past 5 in which there were fewer incidents involving Slips/Trips/Falls, but the total incurred was greater than that for Lifting/Pushing/Pulling injuries. By focusing on reducing injuries overall, and more specifically in these two categories, not only can the frequency be reduced, but the chances for a

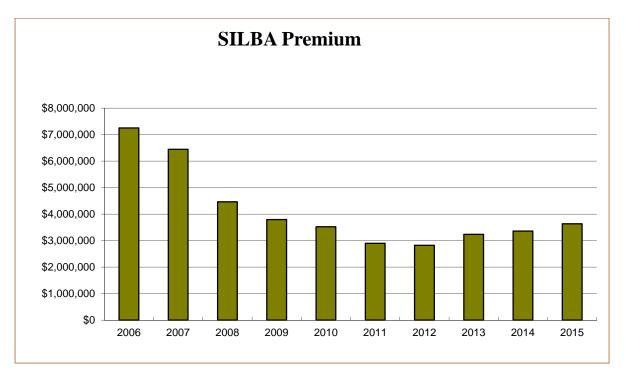

more severe injury will also be reduced. Each member must challenge themselves as to how they are going to proactively prevent injuries from occurring, especially in these two categories.

Learning from near-miss incidents can identify training needs - we should not wait for an injury to occur before focusing on future prevention. If and when an injury does occur, we must learn from the past to determine the root cause of the injury and what could have been done to prevent it. SILBA and Meadowbrook afford the members many resources and tools to achieve improved results. Taking advantage of all of these tools will continue to strengthen members' own individual company results as well as those of SILBA's overall results and will help to ensure the group's continued success.

OPERATING REPORT

MEMBERSHIP AND PREMIUM

At year-end 2015, SILBA had sixty-five members.

Members' 2015 fund year premium totaled \$3.63 million, a 3% increase from the prior year's audited premium. This increase in premium was driven by an increase in the group's higher overall payroll.

DIVIDENDS EARNED

Dividends earned by the members are based on both group results and individual performance. Members maximize savings for themselves and other members of the group by controlling their losses. Dividends are calculated as premiums paid in, less the cost of claims and all costs of running the Group, plus investment income. From program inception through December 31, 2015, SILBA members have paid in a total premium of \$89.4 million dollars and earned dividends of \$26.3 million, an average return of 29.4% over SILBA's history.

SILBA began to return dividends earned to its members in 1995, the earliest date allowed by Massachusetts laws and regulations. Through year-end 2015, \$23.6 million of the \$26.3 million of dividends earned had been returned to the members, including more than \$623,000 distributed to SILBA members in February of 2015. Dividends earned but not distributed are designated as "Distributions due to members" on SILBA's balance sheet.

GROUP EXPENSES

From an expense perspective, SILBA's Board of Trustees remains focused on safety, on actively managing claims and mitigating claim costs when injuries do occur, and on controlling the overall costs of the program in order to maximize the dividends it returns to its members.

SILBA's largest expense is the cost of its claims. Losses and loss adjustment expenses incurred include both amounts paid and reserves held to pay the estimated ultimate costs of open claims.

Fund Year	Premium	Incurred	% of Premium
2006	\$7,252	\$3,787	52.2%
2007	\$6,446	\$3,246	50.4%
2008	\$4,464	\$2,316	51.9%
2009	\$3,795	\$1,271	33.5%
2010	\$3,520	\$3,512	99.8%
2011	\$2,897	\$2,121	73.2%
2012	\$2,823	\$1,742	61.7%
2013	\$3,237	\$2,274	70.3%
2014	\$3,359	\$2,357	70.2%
2015	\$3,387	\$2,279	67.3%

To help ensure ongoing profitability the SILBA Board of Trustees and Claim and Loss Control Committee have continually focused their efforts and allocated resources to safety and to the highest quality claim and loss control services for the Group's members.

SILBA also maintains high quality excess insurance coverage for the protection of the Group and its members. Excess insurance caps the Group's potential claim costs on both an individual (specific) claim as well as an aggregate (total cost of all claims for the year) basis. Other operating costs include costs for administration, claims management, loss control services, and other day to day operating costs.

Fund Year	Insurance	Operating	Costs
2006	10.3%	13.5%	23.8%
2007	9.7%	14.4%	24.2%
2008	10.4%	16.3%	26.7%
2009	10.9%	17.7%	28.6%
2010	10.6%	18.4%	29.0%
2011	12.1%	18.6%	30.7%
2012	12.1%	21.7%	33.8%
2013	12.0%	17.5%	29.5%
2014	11.5%	17.0%	28.4%
2015	12.0%	17.6%	29.6%

Premium dollars are used to pay claims and all operating costs of the program. When these premium dollars, combined with investment income, exceed program costs, the members' dividend pool is funded. Conversely, if funds are inadequate to cover all costs, additional amounts may need to be

collected. Historically, SILBA's results have been such that the total costs to run the program have ultimately been less than the premium dollars collected. Since 2010, with low workers compensation rates and higher claim costs, remaining committed to safety and claim mitigation strategies is more important than ever.

FINANCIAL HIGHLIGHTS

At December 31, 2015 SILBA's assets totaled \$6.17 million, 98.5% of which were in the form of cash and invested assets, on which SILBA earns investment income to supplement its dividend pool. In 2015, invested assets yielded \$130,103 of net investment income.

Cash and Invested Assets (in 000's) as a Percentage of Total Assets							
	Cash and						
	Invested Assets	Total Assets	to Total				
2006 Fund Year	\$11,823	\$11,991	98.6%				
2007 Fund Year	\$12,869	\$13,571	94.8%				
2008 Fund Year	\$12,509	\$12,801	97.7%				
2009 Fund Year	\$12,083	\$12,432	97.2%				
2010 Fund Year	\$9,946	\$10,156	97.9%				
2011 Fund Year	\$8,049	\$8,210	98.0%				
2012 Fund Year	\$6,370	\$6,478	98.3%

2014 Fund Year	\$6,156	\$6,250	98.5%				
2015 Fund Year	\$6,075	\$6,167	98.5%				

Assets are invested in highly rated fixed income securities:

Cost	
Cost	Value
\$2,116,018	\$2,186,393
\$2,520,780	\$2,521,919
\$726,375	\$732,248
\$5,363,173	\$5,440,560
\$712,632	\$712,632
\$6,075,805	\$6,153,192
	\$2,520,780 \$726,375 \$5,363,173 \$712,632

Dividends and Reserves (in 000's) as a Percentage of Total Liabilities								
	Distributions due to Members	Reserves For Losses and LAE	Total Dividends and Reserves	Total Liabilities	Percentage to Total			
2006 Fund Year	\$5,093	\$6,554	\$11,647	\$11,991	97.1%			
2007 Fund Year	\$7,602	\$5,618	\$13,220	\$13,571	97.4%			
2008 Fund Year	\$8,130	\$4,448	\$12,577	\$12,801	98.3%			
2009 Fund Year	\$8,096	\$4,166	\$12,262	\$12,432	98.6%			
2010 Fund Year	\$6,905	\$3,090	\$9,995	\$10,156	98.4%			
2011 Fund Year	\$5,402	\$2,778	\$8,180	\$8,210	99.6%			
2012 Fund Year	\$3,167	\$3,261	\$6,428	\$6,478	99.2%			
2013 Fund Year	\$2,298	\$3,968	\$6,265	\$6,468	96.9%			
2014 Fund Year	\$2,537	\$3,400	\$5,937	\$6,250	95.0%			
2015 Fund Year	\$2,693	\$3,018	\$5,711	\$6,167	92.6%			

The majority of SILBA's liabilities were distributions due to members (dividends payable) and reserves for losses and loss adjustment expenses.

Distributions due to members, at over \$2.69 million at year end 2015, represent dividends earned by members and held for future distribution. These distributions payable are the equivalent of the Group's surplus. With \$3.14 million of net calendar year premium earned, SILBA's premium to "surplus" ratio in 2015 was 1.17 to 1.

Reserves for losses and loss adjustment expenses are held to pay claims and claim-related expenses. The adequacy of reserves is reviewed annually and certified by an independent actuarial firm. Reserves include case reserves, which are the claim adjusters' estimates of the future amounts necessary to resolve open claims, and actuarial or bulk reserves. Bulk reserves provide for the following contingencies:

- That the adjuster's estimates may understate the ultimate cost of a claim (that is, an injury could prove to be more severe, and benefits more costly, than is known at the time of the adjuster's estimate);
- That an injury which occurred before year-end has yet to be reported;
- That a previously closed claim is reopened.

In 2015, reserves held were comprised of \$850,000 of case reserves and \$2.15 million of bulk reserves (net of reserve discounts), approximately \$2.53 of bulk reserve for each \$1 of case reserve.

Reserves represent <u>estimates</u> of claim costs, and the risk exists that the reserves could prove to be insufficient to cover the ultimate cost of the claims. In 2015, SILBA's losses and loss adjustment expenses incurred included a <u>decrease</u> of \$539,301 of prior years' reserves resulting from subsequent favorable loss development. In 2014 prior years' reserves were <u>decreased</u> \$346,009 due to favorable loss development. When reserves are increased in subsequent years, the related fund year's dividend pool is decreased. Releasing, or decreasing, reserves <u>increases</u> the related fund years' dividend pools.

To the Board of Trustees Self Insured Lumber Businesses Association, Inc. Andover, Massachusetts

Independent Auditor's Report

We have audited the accompanying financial statements - statutory basis, of Self Insured Lumber Businesses Association, Inc., which comprise the balance sheets - statutory basis as of December 31, 2015 and 2014, and the related statutory statements of operations and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions prescribed or permitted by the Division of Insurance of the Commonwealth of Massachusetts. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Self Insured Lumber Businesses Association, Inc. Page Two

Independent Auditor's Report - Continued

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the balance sheets - statutory basis of Self Insured Lumber Businesses Association, Inc. as of December 31, 2015 and 2014, and the results of its operations and its cash flows for the years then ended, in accordance with the financial reporting provisions of the Division of Insurance of the Commonwealth of Massachusetts as described in Notes 2, 3, and 9.

Basis of Accounting

We draw attention to Notes 2, 3, and 9 of the financial statements, which describe the basis of accounting. The financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by the Division of Insurance of the Commonwealth of Massachusetts, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Division of Insurance of the Commonwealth of Massachusetts. Our opinion is not modified with respect to that matter.

Risk of Change in Estimate

As discussed in the notes to the financial statements, the reserve for unpaid losses and loss adjustment expenses reflected in the accompanying financial statements is based upon an evaluation by the Group's independent actuary. Management believes that this estimate is reasonable. However, changes in this estimate may occur from year to year which can be material in relation to the financial statements taken as a whole. No assurance can be given that the actual losses will not be more or less than the current estimate.

Restriction on Use

This report is intended solely for the information and use of the Board of Directors and management of Self Insured Lumber Businesses Association, Inc. and the Division of Insurance of the Commonwealth of Massachusetts and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Financial Statements - Statutory Basis

December 31, 2015 and 2014

Note 1 - Organization

Self Insured Lumber Businesses Association, Inc. (the "Group") was organized as a workers' compensation self-insurance group on January 1, 1993, under Massachusetts General Law, Chapter 152. The Group is comprised of Massachusetts lumber businesses (the "members") who have entered into agreements to pool their liabilities for workers' compensation benefits and employers' liability in Massachusetts. The Group is governed by the Board of Trustees, all of whom were elected by and represent the members. The day-to-day operations are administered by a third-party administrator who is paid a management fee.

Note 2 - Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on the basis of accounting practices prescribed or permitted by the Division of Insurance of the Commonwealth of Massachusetts. Statutory accounting practices vary from accounting principles generally accepted in the United States of America. Significant variances from accounting principles generally accepted in the United States of America (GAAP) include, but are not limited to, the following:

<u>Policy Acquisition Costs</u> - Under statutory accounting practices, the cost of acquiring and renewing business (principally commissions) is charged to operations as premiums are written. Under GAAP, such amounts are deferred to the extent recoverable and charged to operations ratably over the periods covered by the related insurance contracts.

<u>Reserve for Unpaid Losses and Loss Adjustment Expenses</u> - Under statutory accounting practices, the reserve for unpaid losses and loss adjustment expenses is discounted for the time value of money utilizing a rate and payout pattern prescribed by the Internal Revenue Service (IRS) for federal income tax purposes. Under GAAP, the discount for reserves on unpaid losses and loss adjustment expenses is computed based upon the Group's anticipated payout pattern using a discount rate determined by management to approximate the Group's investment yield during the payout period.

<u>Reinsurance Balances</u> - Under statutory accounting practices, reinsurance balances related to unpaid losses and loss adjustment expenses are presented as a reduction to the reserves. Under GAAP, such amounts are presented as reinsurance recoverables, and the loss reserves are gross of any such recoverables.

<u>Valuation of Bonds</u> - Under statutory accounting practices, the bonds owned by the Group are generally valued at amortized cost. Under GAAP, such debt securities are designated at purchase as held-to-maturity, trading, or available-for-sale. Held-to-maturity debt securities are reported at amortized cost; the remaining debt securities are reported at fair value, with unrealized gains and losses reported in operations for those designated as trading and as a separate component of equity for those designated as available-for-sale.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies - Continued

<u>Cash and Cash Equivalents</u> - Cash and cash equivalents include those items with an original maturity of one year or less at the date of acquisition for purposes of the statutory basis financial statements. However, under GAAP, cash and cash equivalents include those items with an original maturity of three months or less at the time of acquisition. Cash equivalents consist of various money market accounts and have been valued at cost.

<u>Statement of Cash Flows</u> - Under statutory accounting practices, a reconciliation to the indirect method of cash flows is not presented. This would be required under GAAP.

<u>Unearned Premium Reserves</u> - Unearned premium reserves, if any, are reduced by ceded unearned premiums. However, under GAAP, these amounts would be recorded as a prepayment.

<u>Non-admitted Assets</u> - Under statutory accounting practices, certain assets are considered non-admitted assets. As such, they are excluded from the balance sheets - statutory basis. Changes to non-admitted assets are recorded directly in policyholders' surplus. Common examples of non-admitted assets include premiums receivable over 90 days old, certain prepaid expenses, certain fixed assets, and certain deferred tax charges. Under GAAP, the assets would be included on the balance sheet, net of any estimated allowances.

<u>Earned Premiums</u> - Earned premiums as reflected herein are based upon estimated payrolls as submitted by the insured employers. The Group conducts annual payroll audits of the payroll records of insured members. Any premium changes resulting from these payroll audits are recognized during the year of the payroll audit. Under GAAP, an estimate of earned but unbilled premiums expected to result from payroll audits would be recorded.

Premiums are established annually based on Massachusetts workers' compensation rates and adjusted for individual experience. Premium rates are intended to be sufficient to cover all operating costs and to maintain and continue the Group in full force and effect. The Group's practice is to make additional premium assessments of any member whose case-incurred losses and allocable expenses exceed the original premiums charged for a fund year or in the event that sufficient funds are not available for the sound financial operation of the Group.

Premiums are recorded as earned on a pro rata basis over the term of individual policies. Premiums earned are reported net of premiums ceded.

<u>Premiums Receivable</u> - Premiums receivable over 90 days past due are considered non-admitted assets. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies - Continued

<u>Distributions to Members</u> - The Group typically has declared distributions payable to members equivalent to income before provision for distributions to members. The Board of Trustees will determine the timing of these distributions. In accordance with Massachusetts self-insurance group regulations, the Group will not begin to distribute this balance until 24 months after the end of the fund year in which the distribution is declared, at which point 25% of the calculated amount may be distributed. Thereafter, up to 33%, 50%, and 100% of the recalculated distributions may be distributed in each of the successive 12-month periods.

<u>Realized Gains and Losses on the Sale of Bonds</u> - Gains and losses resulting from the sale of bonds are determined using the specific-identification method. Premiums paid and discounts taken on the purchase of bonds are amortized and recognized in investment income using the effective interest method over the period to maturity.

<u>Bonds</u> - Bonds are carried at amortized cost, adjusted for accretion of discount or amortization of premium. For disclosure purposes, fair values for debt securities are based on quoted market prices, where available. For debt securities not actively traded, fair values are estimated using values obtained from independent pricing services or, in the case of private placements, are estimated by discounting the expected future cash flows using current market rates applicable to the coupon rate, credit, and maturity of the bonds.

Loan-backed debt securities are valued at amortized cost using the interest method, including anticipated prepayments. Prepayment assumptions are internal estimates based on the current interest rate and economic environment. The retrospective method is used to value all loan-backed debt securities.

An other-than-temporary impairment charge is taken when the Group does not have the ability and intent to hold the security until the forecasted recovery, or if it is no longer probable that the Group will recover all amounts due under the contractual terms of the security. Many criteria are considered during this process including, but not limited to, the current fair value as compared to amortized cost or cost, as appropriate, of the security; the amount and length of time a security's fair value has been below amortized cost or cost; specific credit issues and financial prospects related to the issuer; the Group's intent to hold or dispose of the security; and current economic conditions. Other-than-temporary impairment losses result in a realized loss and a permanent reduction to the cost basis of the underlying investment.

<u>Use of Estimates</u> - The preparation of statutory basis financial statements require management to make estimates and assumptions that affect amounts reported in the statutory basis financial statements and accompanying notes. Actual results could differ from these estimates. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies - Continued

<u>Subsequent Events</u> - Management has evaluated events and transactions subsequent to the balance sheet date for potential recognition or disclosure in the financial statements through June 20, 2016, which is the date the financial statements were available for issuance.

Note 3 - Statutory Accounting Practices

The financial statements of the Group are presented on the basis of accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance (the "Division"). The Division recognizes only statutory accounting practices prescribed or permitted by the state of Massachusetts for determining and reporting the financial condition and solvency of an insurance company under Massachusetts insurance laws and regulations. The National Association of Insurance Commissioners' *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the Commonwealth of Massachusetts, along with certain prescribed accounting practices specifically related to self-insurance groups that differ from those found in NAIC SAP.

Those differences include the following:

Premiums receivable over 90 days old: If a member's premium is more than 90 days overdue, in lieu of "non-admitting" the balance, it may be offset against declared but unpaid dividends. However, a monthly penalty equal to the average earnings on investments, plus at least 1%, must be charged to the member. Under NAIC SAP, such premium receivable balances would be non-admitted.

Earned but unbilled premiums: Estimated earned but unbilled premiums based on premium audits are not recorded unless an audit has been completed indicating that additional premiums will be billed within the following 30 days. Under NAIC SAP, an estimate of earned but unbilled premiums expected to result from payroll audits, less 10% non-admitted, would be recorded.

Discounting of loss reserves: Loss reserves are discounted at rates currently used by the IRS. Under NAIC SAP, discounting of loss reserves is not permitted, except for tabular reserves under IRS guidelines.

Income taxes: The Group is not required to record deferred tax assets and deferred tax liabilities on its financial statements.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 4 - Excess Insurance Coverage

The Group has purchased excess insurance for protection against unusually high losses. Specific excess insurance protects against large individual losses. Aggregate excess insurance protects against a high overall level of losses. For each accident that is in excess of a specific retention, the coverage takes effect subject to the limits as imposed by the various contracts.

The following table summarizes the reinsurance activity for the years ended December 31:

Premiums Earned			Reserve for Loss Adjustme		Loss and Loss Adjustment Expenses Incurred		
	2015	2014	2015	2014	2015	2014	
Direct Ceded	\$ 3,568,341 (425,439)	\$ 3,552,063 (409,425)	\$ 3,048,301 (29,692)	\$ 3,431,022 (30,974)	\$ 1,740,598 (1,284)	\$ 2,013,598 (2,819)	
Net	\$ 3,142,902	\$	\$ 3,018,609	\$ 3,400,048	\$ 1,739,314	\$ 2,010,779	

Excess insurance contracts do not relieve the Group from its obligations to its members. Failure of excess insurers to honor their obligations could result in losses to the Group. Accordingly, the Group evaluates the financial condition of its excess insurer to minimize exposure to significant losses from insolvency.

There are no nonaffiliated, unsecured, and aggregate reinsurance recoverables for paid and unpaid losses, including incurred but not reported losses, unpaid loss adjustment expenses, and unearned premiums that exceed 3% of the Group's undistributed dividends.

Note 5 - Bonds

Bonds are stated at amortized cost and consist of the following:

	December 31, 2015							
	Amortized Cost		Gross Unrealized Gains		Gross Unrealized Losses			Fair Value
U.S. government securities Corporate securities Mortgage backed securities	\$	2,520,780 2,116,018 726,375	\$	22,761 75,260 8,737	\$	(21,622) (4,885) (2,864)	\$	2,521,919 2,186,393 732,248
	\$	5,363,173	\$	106,758	\$	(29,371)	\$	5,440,560

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 5 - Bonds - Continued

	December 31, 2014						
	Amortized		Gross Unrealized		Gross Unrealized		Fair
	 Cost		Gains		Losses		Value
U.S. government securities Corporate securities Mortgage backed securities	\$ 2,605,927 2,076,296 821,856	\$	27,886 124,821 15,993	\$	(7,399) (1,524) (3,657)	\$	2,626,414 2,199,593 834,192
	\$ 5,504,079	\$	168,700	\$	(12,580)	\$	5,660,199

The amortized cost and estimated fair value of bonds, by contractual maturity, are shown below. In some instances, actual maturities may differ from contractual maturities, because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	December 31, 2015			December 31, 2014				
	<u></u>	Amortized Cost		Fair Value		Amortized Cost		Fair Value
Due in one year or less Due in one year through five years Due after five years through ten years	\$	407,586	\$	414,474	\$	509,972	\$	512,036
		3,175,518		3,232,425		3,143,996		3,235,438
		1,780,069		1,793,661		1,850,111		1,912,725
	\$	5,363,173	\$	5,440,560	\$	5,504,079	\$	5,660,199

Proceeds from sales or maturities of bonds during 2015 and 2014 were \$1,696,402 and \$1,041,389, respectively. Gross gains of \$13,724 and \$21,604 were realized during 2015 and 2014, respectively. There were \$7,114 and \$3,978 of gross realized losses in 2015 and 2014, respectively.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 6 - Reserve for Unpaid Losses and Loss Adjustment Expenses

The reserve for unpaid losses and loss adjustment expenses is based upon an evaluation of the Group's losses as prepared by the Group's independent actuary. This evaluation of the Group's losses is a significant estimate which is subject to change. These changes can be material in relation to the financial statements taken as a whole. The reserve for unpaid losses and loss adjustment expenses includes an estimated provision for incurred but not reported losses (IBNR) as well as reported losses. The IBNR provision totaled approximately \$2,530,000 on an undiscounted basis as of December 31, 2015 and 2014.

Any increases or decreases in ultimate incurred losses on a net basis as compared to the prior year will result in a direct increase or decrease in the current year's net earnings. During the years ended December 31, 2015 and 2014, the Group experienced a net decrease in the estimate of ultimate incurred losses and loss adjustment expenses and change in reserve discount for prior years as a result of claim development. These amounts have been deducted from losses and loss adjustment expenses in 2015 and 2014.

For the years ended December 31, 2015 and 2014, the reserve for unpaid losses and loss adjustment expenses has been discounted to its net present value in the accompanying financial statements. The reserves have been discounted utilizing interest rates and payout patterns based upon nationwide losses, both of which were promulgated by the IRS. The unpaid losses and loss adjustment expenses were discounted \$366,434 and \$440,308 at December 31, 2015 and 2014, respectively.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 6 - Reserve for Unpaid Losses and Loss Adjustment Expenses - Continued

The following table sets forth a reconciliation of beginning and ending discounted reserves for losses and loss adjustment expenses for the years ended December 31:

	<u>2015</u>	<u>2014</u>
Reserve for losses and loss adjustment expenses, beginning of year	\$ 3,400,048	\$ 3,967,691
Incurred losses and loss adjustment expense: Provision for insured events of the current year Provision for insured events of prior years	2,278,615 (539,301)	2,356,788 (346,009)
Total incurred losses and loss adjustment expenses	1,739,314	2,010,779
Losses and loss adjustment expense payments related to: Current year Prior years	823,573 1,297,180	745,017 1,833,405
Total losses and loss adjustment expense payments	2,120,753	2,578,422
Reserves for losses and loss adjustment expenses, end of year	\$ 3,018,609	\$ 3,400,048

Note 7 - Management Fees

The Group has entered into a management agreement, expiring December 31, 2017, with the administrator under which the administrator provides various services including loss control, claims management, marketing, accounting, and general administration. The administrator also receives a commission for obtaining excess insurance coverages for the Group. The Group incurred management fees and commission expense of approximately \$504,000 and \$480,000 for the years ended December 31, 2015 and 2014, respectively.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 8 - Income Taxes

Under applicable provisions of the Internal Revenue Code, the Group is liable for income taxes on earnings not ultimately distributed by the Board of Trustees. The Group files with the IRS as a property and casualty insurance company under the provisions of Subchapter L of the Internal Revenue Code.

The Group recognizes tax benefits only in the event that a position is more likely than not to be sustained upon examination by the applicable taxing authority. Tax years from 2012 through the current year remain open for examination by federal and state tax authorities. The Group was audited by the IRS for tax years 2010 and 2011. The IRS challenged the deductibility of the policyholders' dividends on the accrual basis and suggested that this should be on the cash basis. The Group received a final resolution from the IRS indicating no change.

Note 9 - Prescribed or Permitted Statutory Accounting Practices

The Group is domiciled in Massachusetts and prepares its statutory financial statements in accordance with accounting principles and practices prescribed or permitted by the Division of Insurance of the Commonwealth of Massachusetts. Prescribed statutory accounting practices include state laws, regulations, and general administrative rules, as well as a variety of publications of the NAIC. Permitted statutory accounting practices encompass all accounting practices that are not prescribed. Such practices differ from state to state, may differ from company to company within a state, and may change in the future.

Note 10 - Deposit with Massachusetts Division of Insurance and Restricted Cash

The Group is required to provide security amounting to \$327,000 and \$319,000 at December 31, 2015 and 2014, respectively (see Note 12). An escrow account, which includes approximately \$350,000 in certificates of deposit, is pledged to the Massachusetts Division of Insurance as a security deposit pursuant to Section 211CMR67.08(2)(9d) at December 31, 2015 and 2014. At December 31, 2015, the Group was in compliance with security requirements.

Note 11 - Member Indemnification

The Group has entered into an agreement with each participating employer to provide risk management services, workers' compensation, and employers' liability coverages for the participating employers. The agreement includes a provision that each member is jointly and severally liable for the workers' compensation and employers' liability obligations of the Group and its members which were incurred during the period of time that the participating employer was a member of the Group. Accordingly, any claims or expenses after the Group has exhausted reserves and reinsurance shall be the financial responsibility of the members.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 12 - Statutory Requirements

Among other requirements outlined in the Commonwealth of Massachusetts Self-Insurance Group regulations, the minimum financial requirements are as follows:

<u>Security</u> - The Group is required to provide to the Commissioner of Insurance of the Commonwealth of Massachusetts security equal to the greater of 10% of the Group's standard premium or \$100,000. At December 31, 2015 and 2014, the Group was required to provide security amounting to \$327,000 and \$319,000, respectively (see Note 10).

<u>Liquidity</u> - The Group is required to provide security to the extent undiscounted loss reserves and unearned premiums exceed liquid assets. The Group was not required to provide security because undiscounted loss reserves and unearned premiums did not exceed liquid assets.

<u>Net Worth</u> - The net worth of all the members of the Group combined is required to exceed the greater of 400% of the Group's standard premium or \$1,000,000.

<u>Reinsurance/Excess Insurance</u> - The Group is required to obtain specific excess reinsurance coverage of at least \$5,000,000 per occurrence and aggregate excess insurance attaching at 105% of standard premium.

The retention limit for the Group's excess reinsurance coverage shall not be more than 30 % of the net premium of the Group. Reinsurers shall be licensed, admitted, or otherwise authorized to transact insurance or reinsurance in the Commonwealth of Massachusetts and be rated by at least two of the following rating agencies: A.M. Best & Company (A-), Fitch (AA), Moody's Investors Services (AA2), and Standard & Poor's Corporation (A).

As of December 31, 2015 and 2014, the Group was in compliance with all statutory financial requirements, or received waivers via permitted practices as noted herein.

Notes to Financial Statements - Statutory Basis - Continued

December 31, 2015 and 2014

Note 13 - Concentrations

The majority of the insured members who participate in the Group are lumber businesses exclusively in the Commonwealth of Massachusetts. The Group does not insure any other members outside of Massachusetts.

The Group has a potential concentration of credit risk in that it maintains deposits with financial institutions in excess of amounts insured by the Federal Deposit Insurance Corporation (FDIC). The maximum deposit insurance amount was \$250,000, which was applied per depositor, per insured bank for each account ownership category. As of December 31, 2015, the Group has \$544,209 in excess of FDIC limits.

Premiums with one member accounted for approximately 15% of the Group's premiums as of December 31, 2015 and 2014.
